Introducción

En el presente documento se integra el **“Anexo: Tablas de Desagregado Municipal y por Entidades Federativas”** que complementa la información expresada en el **Tercer Informe de Gobierno 2009 de la administración 2007-2013 del Gobierno del Estado de Jalisco** que encabeza el **C. Emilio González Márquez**.

Las tablas que componen este anexo han sido organizadas en torno a los cuatro Ejes de Gobierno contemplados en el Plan Estatal de Desarrollo vigente; “Empleo y Crecimiento”, “Desarrollo Social”, “Respeto y Justicia” y “Buen Gobierno”.

Este anexo detalla la ubicación y alcance municipal y estatal de las obras y acciones que documentan los avances planteados en el cumplimiento de las metas del presente informe cuatrimestral. Adicionalmente, en las tablas por entidad federativa, se posibilita ubicar la posición que guarda Jalisco en el entorno nacional con respecto al indicador que se esté analizando.

Es importante asentar que estos desagregados sólo se presentan para aquellos indicadores que muestran información para este periodo y de los cuales, por su naturaleza, es posible establecer la focalización e impacto específico para Jalisco.

Para facilitar un análisis en el tiempo de la información se han incluido datos históricos (2006, 2007 y 2008) que dotan de una panorámica más completa del comportamiento de los indicadores relevantes.

Las obras y acciones registradas, así como el lugar de Jalisco a nivel nacional, constituyen una clara evidencia del avance de nuestro Estado fincado en el trabajo y colaboración entre los distintos sectores de la sociedad y el Gobierno del Estado de Jalisco.

Nota:

No se determinó valor para los municipios de Tonalá, Guadalajara, Tlaquepaque y Zapopan debido a que la densidad de la red de caminos y carreteras que los integran no es significativo respecto a otras vías como las calles y avenidas que no se incluyen en el análisis del resto de los municipios de Jalisco. Nota

Debido a que los valores porcentuales desagregados por municipio resultan poco comprensibles, se realizó el cambio en la unidad de medida para este desagregado quedando como cabezas analizadas. Para este tercer cuatrimestre hasta octubre de 2009 se tiene un acumulado de 285,691 cabezas analizadas con pruebas de tuberculosis. A finales de diciembre se emitirán los listados finales de pruebas aplicadas en el Estado.
